#### FLORIDIAN LOSES MOVE TO ESCAPE INDIANA CHARGE

St. Augustine, Fla., June 10.—(P)— William H. Arnold, of Palatka, Fla., wanted in Kokomo, Ind., on charges of embezzlement, lost another skinmish today in his fight against ex-tradition when Circuit Judge George W. Jackson denied a habeas corpus

However, Arnold succeeded again in blocking for the time being his transfer back to Indiana, for defense attorneys obtained from Judge Jackson an order for an appeal to the state supreme court. The order is returnable September 2.

able September 2.

Indiana authorities have endeavored since 1924 to take Arnold back to Kokomo where it has been alleged he embezzled between \$500,000 and \$1.000,000 although the charge on which extradition was sought specified embezzlement of \$22,000 from the defunct American Trust Company of Kokomo. Former Governor John W. Martin granted request of Indiana officers for extradition but Arnold by the habeas corpus petition and subsequent delay in its bearing has remained in Florida. in its bearing has remained in Florida

SLICER, NORMAN TRIAL

Continuance Expected To Be Asked Today.

Motion for a continuance of the case of J. Sam Slicer and R. C. Norman, former executives of the defunct Colonial Trust company, is expected to be made when they are called for trial before Superior Judge Virlyn B. Moore this morning.

No official report of the intended motion was made, but persons close to the Slicer and Norman defense said that they understood the defendants' counsel would ask for more time to prepare their case.

Solicitor-General John A. Boykin, who will direct the prosecution of the

FLAME keeps food fresh and MAKES ICE

JUST A FEW PENNIES A DAY!-You probably spend as much for daily papers as it costs to operate an Electrolux. This refrigerator gives you ice for life at an incredible saving. One reason for the low cost is that gas and water are relatively cheap. Another is that Electrolux uses only a small quantity of each.

AT THE LOMBARDY! - Picture shows entrance of the Lombardy, one of the finest big new apartments recently erected in New York, just off Park Avenue at 39th Street. One of the modern features of this building is that each kitchen is equipped with Electrolux, the gas refrigerator. All over the country leading architects are specifying this noiseless, trouble-free type of refrigeration.

PITY THE COUCH GUEST!-He may toss and turn all night on this living-room couch of a three-room apartment, but it won't be the fault of his host's automatic refrigerator. Not if said refrigerator is an Electrolux. There is no machinery, not a single moving part, to the Electrolux, so of course it's absolutely noiseless, not only when you buy it, but forever after.

#### SAFE TORN OPEN AND \$200 STOLEN

The work of yeggmen who tore oper the door of a heavy safe to steal more than \$200 in cash, a watch and two valuable stickpins, was discovered early Monday morning when offices of the Commercial Union Assurance Company, on the eleventh floor of the Hurt building, were opened for busi

ness.

According to police reports, the thugs used a "jimmy" bar to force the outer door, smashed the glass of the inner door to get to the safe and then used heavy, dull tools to knock off the combination knob on the safe. The inner door apparently had been cut with a cold chisel. An investigation by police fingerprint "xperts revealed nothing, indicating that the marauders worked carefully with gloves.

The mass will first be celebrated in St. Peter's by Cardinal Merry del Val or another cardinal who is archpriest of St. Peter's, and the pope will be present. His holiness will then proceed to the chapel of the holy sacrament, and will himself carry the blessed sacrament in a maguificent ostensorium under a bald-acchino assisted by a number of preacchino assisted by a number of pre-lates and high dignitaries. At the door of the basilica, his holiness will leave the sedan chair, and will take the first steps in the square, as he has decided that his first exit from the Vatican will be on foot. Immediately after walking a few steps, the first taken by a pope outside the Vat-ican since 1870, his holiness will raise his hand in benediction over the people of Rome. It is expected that the whole square of St. Peter's will on that day be crowded with an immense multitude, as every Roman will want to be present at the historic event.

The Einstein affair has done much to add to the gaiety of all but mem-bers of the city council, and they, bers of the city council, and they, burdened with a sense of their importance, would scarcely be gay in any case. The national members of the council, who opposed the proposed gift of a house to Professor Albert Einstein, now declare that the relatively masterful scientist himself bought the lot which had been decided upon merely as a white means. ided upon merely as a subtle means of insulting the council. Dr. Einstein himself said that his reason for buy-ing a building site is that he is 50 old and might die houseless if he waited for the city officials to complete the difficult transaction. The trouble arose in March, when it became known, upon Dr. Einstein's

birthday, that he desired a quiet home in which to carry on his research work. The city made the formal ofwork. The city made the formal of-fer of a charming cottage at Neu Cladow on the Havel river. Frau Einstein went to examine the house, and found it occupied by a former army officer who said that he would ot move until his lease expired, in five years. The city then examined several sites, intending to accompany a gift of land with sufficient money to build a house. But delays vened, and Dr. Enstein, or Einstein, grew weary of waiting

DR. MOSHER'S CONTRIBUTION TO WOMANHOOD.

Do you know how to resuscitate in an emergency? If you are not pre-pared to save life in this way you ought to be heartily ashamed of your-self. Even in self-defense you should see to it, if you know how to resuscitate, that everybody around you knows how to do so, for it may be your misfortune to suffer asphyxia ion or submersion or an electric hock, and your life that the unprepared bystander fails to save. In view of the grave error in the method or technic of prone-pressure resuscita-tion (Schaefer method) as taught by the American Red Cross and numerous co-operating agencies, an error which the employes or instructors seem reluctant to correct, now that it has been taught to so many thousands

I urge every girl or woman who woman to study carefully Dr. Mosh-er's little book, "Personal Hygiene for Women," published by Stanford University Press, Stanford Univer-sity, California, \$1.50. Here is Dr. Mosher's own descrip-

of her physiologic method: All tight clothing having been removed, the woman is placed on her back, on a level surface, in the horizontal position. The knees are flexed and she arms are placed at the sides to secure per-fect relaxation. One hand is allowed to rest on the abdominal wall without exerting any pres-sure, to serve as an indicator of the amount of movement. The woman is directed to raise the d by lifting the abdominal without straining, then to see far the hand can be lowered by the voluntary contraction of the abdominal muscles, the mportance of this contraction eing especially emphasized. This xercise is repeated eight or ten times, night and morning, in well ventilated room, preferably while she is still in bed and in her night clothing. She is cau-tioned to avoid jerky movements

and to strive for smooth raising and lowering of the abdominal taken twice daily every day in As this Mosher physiologic method is akin to Schaefer's prone pressure respiration, it seems appropriate to quote Schaefer's own description of

resusciation method here: It consists in laying the sub-ct in the prone posture, prefer-bly on the ground, with a thick folded garment underneath the folded garment underneam the chest and epigastrium. The oper-ator puts himself athwart or at the side of the subject, facing his head, and places his hands on each side over the lower part of the back (lowest ribs). He then the back (towest ribs). He then slowly throws the weight of his body forward to bear upon his own arms, and thus presses upon the thorax of the subject and forces air out of the lungs. This being effected, he gradually relaxes the pressure by bringing his own oody up again to a more own oody up again to a more erect position, but without mov-

The position of the subject is not important in asphyxia from gas, smoke or shock, but it is vitally important in any case where there may be fluid in the breathing passages.

#### Millions of Families Depend on Dr. Caldwell's Prescription

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a larative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the re-lief of constipation which Dr. Cald-well did not believe were good for human beings to put into their sys-tems. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulepee, indigestion, loss of appetite and sleep, that breath, dyspepsia, colds and fevers.

### Midgets Feature Program

Singers' Midgets, comprising one of the most unusual vaudeville acts seen here in many weeks, are offered as this week's Loew's Capitol bill, which is climaxed by a strangely dramatic narrative, "The Bridge of San Luis Reg," on the screen. The entire show is well worth while and is certain to prove one of the week's best, judging from its reception by a capacity audience Monday afternoon.

"Miniatures of 1929," featuring 30 diminutive men and women, is the title of the highlight of the bill. The act is thoroughly enjoyable from the beginning for young folks as well as the grown ups.

The midgets range in height from 28 to 39 inches and in weight from 28 to 39 inches and in weight from 28 to 60 pounds, and it is surprising the manner in which they conduct themselves on the stage. The 10-piece orchestra is one of the unusual features of the act. Other highlights on the act include several dancing numbers, a slight-of-hand trick, sing-

Central of Georgia Appeals for Co-operation in Keeping-Live Stock Off Railroad Tracks

The Central of Georgia has for the past several years noted with satisfaction the development of the live stock industry in the territory it serves. Through the activities of its Agricultural Department, as well as in other ways, it has co-operated in that development. Feeling a genuine interest in agricultural progress, the management of this railroad has noted with concern the economic waste involved in the needless slaughter of live stock allowed to graze or wander upon railroad rights-of-way.

Despite every possible precaution on the part of its officers and employes, especially its train crews, 1,706 animals, or approximately 60 carloads of live stock (more than a solid train load), were killed last year on the Central of Georgia's tracks. This is an average of nearly one animal for each mile of track. Mules and horses killed totaled 142; cows, calves, bulls, steers, helfers and yearlings 931; hogs, sows, pigs and shoats 549; while 39 goats and 44 dogs were killed.

The substantial sum which the Central of Georgia pays out annually in settlement of live stock claims is a direct waste, since this money is diverted from useful investment for improving equipment or maintaining the service of the railroad. Not only does the railroad receive no return, but it is put to additional trouble and expense in settling these claims. Even in cases where the stock owners received payment, it is reasonably safe to say that most of this money was used for other purposes than to buy animals to replace those killed. The amount of live stock was therefore reduced, although that amount is still considerably below the total which this section should raise. Then too the stock owners, for instance of the 205 calves, heifers and yearlings killed, lost a source of still further possible earnings since if sold when fully grown these animals would have brought a greater price.

Experience has shown that with proper care live stock can be raised even in the immediate vincinity of railroad tracks without undue danger. The stock raiser making a serious effort to improve his herds protects his good stock, and seldom loses any through having it run over by railroad trains.

The Central of Georgia appeals to the farmers and stock raisers of its territory to co-operate with the railroads in keeping animals off the tracks. Stock allowed to graze in unfenced areas adjacent to the railroads should be tethered or otherwise protected. Live stock running at large constitute an actual menace. Locomotives or trains striking animals are often derailed, with injury or loss of life to passengers or members of the train crew. For instance, recently a passenger train in Florida striking a cow was derailed and one person killed. Fencing the railroad right-of-way would not remove this menace to human life, since these roaming animals constitute an even greater danger on public highways where numerous automobile wrecks are caused either by striking the animal or attempting to avoid it.

Constructive criticism and suggestions are invited.

Chase recently absorbed American Express Company by an exchange of stock, obtaining a world-wide banking organization.

organization.

Charles S. McCain, president of National Park bank, it is believed, will become president, with Albert H. Wiggin, chairman of Chase, continu-

Wiggin, chairman of Chase, continuing in that post.

McCain was born in 1884 in Pine Bluff, Ark., and was educated in Little Rock schools, Erskine college and Yale. He possesses a Phi Beta Kappa key. McCain has a long record as a successful bank organizer. In 1904, he organized the bank of McGehee, Ark. In 1913 he organized in Little Rock the Bankers Trust Company, of which he became president in 1924. Two years later he came to New York as vice president of the National Park bank.

but with the tone of the market indicating on approaching heavy June 15 and July 1 requirements.

More bullish talk was heard in Wall Street today of heavy foreign buying of copper on the strength of the reparations settlement. This foreign buying, however, is hard to trace. In the meantime before the end of this week the monthly figures on May production and consumption of copper will be given out. Wall Street expects this statement to show a large increase in production, stimulated by the recent high prices for copper.

A decline of 123,000 tons was reported by the steel corporation in its unfilled orders on hand for the month of May. This figure is about what was expected in Wall Street. For the past seven years there has been a falling off in May unfilled orders. To day's statement brings the total to 4,304,000 tons against 4,429,000 at the end of April, which was the year's high. A year ago unfilled orders stood at 3,416,000 tons. The decline for May was caused by production running at hetter than theoretical capacity. New orders placed in May held up to the recent heavy volume.

Wheat Sold Off.

Wheat sold off in response to the government's report on winter wheat indicating a crop of 622,000,000 bushels away from the average private estimate. A month ago the government report indicated a crop of 555,000.

Chicago, June 10 .- (A)-Indications that the United States will add 200,-000,000 bushels or more to 1929 world supplies of wheat gave a jolt to wheat values today. Reports of rains giving at least temporary relief to dry districts of Canada and Argentina

also counted as an influence toward lower prices, and so too did possibilities of some eleventh-hour mishap to tarm legislation at Washington.

Wheat closed heavy at almost the day's bottom level, 3 3-4 to 3 7-8c net lower, with corn 2 1-4 to 2 7-8c down, outs 7-8 to 1 3-8c off and provisions varying from 17c decline to a rise of 5c.

of 5c.

Official developments that the condition of spring wheat in the United States is \$4.8 per cent attracted particular attention among wheat traders especially on account of an inference by the state of the s ence by a leading authority here that it would now take almost a calamity in the northwest to bring the 1929 United States wheat crop to below last year's total. He asserted that the outlook is for 300,000,000 bushels domestic spring wheat yield, and that the total domestic wheat barvest this season probably would be at least 200,000,000 bushels. Price downturns

200,000,000 bushels. Price downturns received greater momentum by reasons of better moisture both in Canada and Argentina, and because of word of decided enlargement on the amount of wheat on ocean passage. Developments towards the end of the day were somewhat reassuring as to farm relief progress, including a statement from the senate minority leader that a vote on the pending bill would not be delayed because of elimination of the debenture rlan.

Favorable weather conditions throughout the corn belt put the corn

throughout the corn belt put the cora market under heavy selling pressure uside from the influence of wheat weakness. Oats gave way owing to sympathy with other cereals. Provisions were responsive to down-turns in grain and in hog values as well.

DAILY BOND AVERAGES. 

New York, June 10 .- (A)-The long-suffering bond market had a relapse today and not only did the price average show the first decline of the month but the volume of trad-

which to meet such obligations as income tax payments and corporation dividends and interest, which fail due to the extent of more than half a billion during the remainder of the asser, ruling at 8 1-4 against 8 1-4 to 8 1-2 last week, but even this favorable factor brought no show of confidence.

4 1-4. Price changes in this group were within a 1-4-point margin.

French bonds attracted the best attention among the foreigns, and made a show of strength around midday, although the final prices failed to maintain the advance.

of the month but the volume of trading, \$7,000,000 par value, was the lowest of the year.

The slump was due not to liquidation but to complete lack of interest. Large investors as well as the occasional bond buyer apparently believed that the credit situation held few promising prospects in view of the heavy demands for funds with which to meet such obligations as income tax payments and corporation dividends and interest, which fall due to the extent of more than half a bil-

#### Few Issues Advance Under Liquidation Over Market

New York, June 10.—(P)—Except for sharp advances in a few utilities and isolated specialties, the curb market today was under selling pressure. Raising of call money rates from 7 to S per cent renewed rumors of an increase in federal reserve rediscount rates and the prospect of another money pinch before the end of the month, all contributed to the day's lacked effective buying support and all contributed to the day's lacked effective buying support and

The decline, which was accompanied by comment on the easier ruling of the grain mar-ket, extended to 18.41 for July and 18.75 for December, making net losses of about 17 to 19 points from Saturday's closing quotations. Closing prices were 3 or 4 points up from the lowest on covering.

A private report published before the opening estimated the increase

in acreage at 4 per cent and said a comparatively dry, warm June would put the plant in excellent shape. Private cables said realizing had supplied some local and continent beying in Liverpool. RALLIES CUT LOSS

AT NEW ORLEANS.

New Orleans, June 10.—(P)—Although moderate rallies followed declines in the cotton market today, the demand was not sufficient to sustain prices at the recoveries and the market gradually worked lower on selling on the favorable weather in the belt and disappointing Liverpool cables. October declined to 18.48 and closed at 18.52, or 18 points net lower. The general market closed steady at net declines of 17 to 21 points.

Liverpool cables were 1 to 5 points lower than due and the market here opened easy at declines of 9 to 15, points.

The generally favorable 113.460; spot sales 4.909.

Commonwealth Power provided about the only excitement of the session running up 28 points to 208, then dropping to 198 at the close. The stock dropped more than 30 points late last week, after reaching a record price at 218 1-2. Today's runup was attributed to a rush of shorts to cover on reports of a new exchange offer by Commonwealth and Southern Corporation. Federal Light and Traction was bid up about 2 points to a new top above 100, but elsewhere in the utility group profit taking was in evidence.

ening of credit, with the approach of the mid-month settlement period, discouraged activity on the stock market today, and prices were inclined to sag. The volume of trading dwindled to the lowest level for a full day since the middle of last August, sales totaled only 2,201,230 shares.

Although call money has been much more plentiful this month than had been expected, the rate amounted to dustrial Alcohol, which mounted 4 dustrial Alcohol, which mounted 4 of 5 points on merger prospects; General Asphalt, which reached new high ground on reports of segregation of the lowest level for a full day since the lowest level for a full day

#### Gelotex Co. Retires Three-Year 6 Per Cent Convertible Notes

The unconverted balance of the Celotex Company's issue of three-year 6 per cent gold notes, due June 1, 1929, were paid on June 1, according to an announcement by President B. G Dahlberg.

Of the original issue of \$1.000,000, \$622,000 were converted into the preferred and common stocks of the company, leaving a balance of \$378,000 to be paid in cash by the company. Out of a bonded debt existing three years ago of \$4,250,000 there is now outstanding less than \$3,000,000. Both the first mortgage bond issue and the 10-year convertible debenture contain sinking fund provisions which act to reduce the debt by a considerable amount each year.

#### Cottonseed Oil.

NEW YORK.

New York, June 10.—Cottonseed oil was moderately active and easy today, closing 7 to 13 points net lower. The weakness in the other outside markets, especially grain and cotton, was responsible for quite a little liquidation. Exchanging from July to October and December was also a trading feature. Refliers bought July and sold later months with commission houses doing the reverse. Sales 14,700 barrels, Frime crude nominal: prime summer yellow snot 5,10; July closed 9,17, September 10.01, Detober 10.08, December 10.11, January 10.13,

New Orleans, June 10.—The market for cotton seed oil futures was lower today owing to dectines in cotton, corn and lard as well as easier spot prices. Frime summer yellow oil closed 8.70, down 5 points, and prime crude closed at 7.81; to 8.00. Futures closed cay. June 8.70; July 8.75; September 8.95; October 9.90; December 9.00.

## ine magic of L Doctors and Health Authorities agree

that MILK is the greatest Body Builder..

O other food contains the magic of milk—the magic that builds bone and muscle, rich red blood and boundless energy; that beautifies from within by making the eyes of children and grown-ups brighter, their lips redder, their skin smoother and their smiles sunnier.

Health and beauty-these are what pure, rich milk offers you. Every doctor, health authority, and nutrition expert agrees on this. Milk is so easy to get, so inexpensive, that it is hard to appreciate its perfection. In the search for greater health and beauty, young and old seek far-often in vain. Yet, here, at your very door, is Nature's greatest tonic and beautifier.

"The use of milk is the greatest factor of safety in our diet," says the U. S. Department of Agriculture . . . "There is no other animal protein of known value procurable at so low a price as the proteins in milk." ..... "Of all food sources of calcium, milk and cottage cheese are the cheapest, most easily available, and most abundant."

The U. S. Children's Bureau advocates a quart of pure milk every day for all growing children. For the diet of the expectant mother, who

must supply nourishment not only for herself but for her baby, the Bureau advocates an abundance of milk because "The need of calcium in the diet of the expectant mother is one and one-half times as much as that normally needed."

Milk was created as the perfect food-to make children grow into strong, happy

grown-ups-to give men and women fresh vitality, with which to carry on their everyday tasks.

Scientists state that the diet of the growing child should include a quart of pure, fresh milk every day and that adults need a slightly less amount. This does not mean added expense - it means less. Because of the greater nourishing qualities of pure milk, other more costly foods can be reduced considerably.

Try Foremost milk today - it is fresh, absolutely pure, and doubly safeguarded for your and your family's health.

protection, scientifically deodorized.

MILLIONS of women have learned to depend on Kotex within the last ten years. It has brought better health, greater peace-of-mind under try-ing conditions. Now comes an added advantage. Kotex scientists have discovered (and patented)\* a process that deodorizes, safely and completely. After several years of research, the one remaining problem in connection with sanitary pads is solved!

Amazingly absorbent and softer than ever

Cellucotton absorbent wadding, which fills Kotex, is Stimes more absorbent than cotton itself. It takes up 16 times its own weight in moisture. The iden-

ing hospitals of the country, Cellucotton absorbent wadding is preferred by sur-geons for its softness and hygienic

No more bulky outlines

The feeling of being conspicuous because of the bulkiness of old-time methods is gone, too. Kotex pads are rounded and tapered so there is no evidence of sanitary protection when worn.
You may adjust layers of filler as needed—a thing all women appreciate. There is a new softness, because both filler and gauze have been specially treated.
Finally, Kotex is so easy to dispose of, all minering all and of landering.

Some women find Super-size Kotex a special comfort. Exactly the same as the Regular size Kotex, but with added layers of Cellucotton absorbent wadding.

#### Banquet and Dance at Biltmore Honor Civitans and Their Guests

Among the many delightful social affairs planned for the visiting delegates in attendance at the ninth annual convention of the Civitian International now in session at the Atlanta Biltmore hotel was the banquet and dance given last evening at the Biltmore hotel.

Assembling several bundred local visiting guests, an elaborate banquet was served at 7:30 o'clock on the eastern terrace of the hotel overlooking the Biltmore gardens. A picturesque scene was presented by the lovely background of growing flowers in the gardens and the colorful decorations on the tables. The speakers' table was graced with five iron craft baskets placed at intervals containing summer garden flowers in the dresden shades and including pink roses, snapdragons, blue larkspur, lilies of the valley, maiden hair fern. On each of the smaller tables were baskets filled with pink roses and delphinium. Following the banquet dancing was enjoyed until a late hour in the ballroom of the hotel.

Cordial interest centers in the aunouncement of the wedding plans of Miss Elizabeth Huber, sister of Mrs. C. T. McGuire, and Robert Callahan, son of Mr. and Mrs. L. J. Callahan, of Atlanta. The marriage will be solemnized at nuptial mass at 9 o'clock Wednesday morning, June 12, at St. Anthony church. The Rev. Father J. X. Conlin will perform the ceremony in the presence of a representative gathering of relatives and friends.

Preceding the service an interesting program of nuptial music will be rendered. Mrs. Engene Callahan, soprano, will sing "Ave Maria" to the accompaniment of Miss Nell Jentzen, organist. . The wedding march from Lohengrin will be used as the processional and Mendelssohn's bridal chorus as the recessional.

MR. WREN LOSES PATIENCE.

BY THORNTON W. BURGESS. Patience is a virtue best

Mr. Wren enjoys work. He couldn't be happy in the spring if he could not be busy. The busier he is, the happier he is, and the more he sings. There is nothing like singing over your work. So, while Jenny Wren went about poking into every little nook and cranny, Mr. Wren stuck to his job. He carried sticks and bits of wire and nails into one of those little houses Farmer Brown's Boy had put up. until at last that little house was full. There wasn't even room to make the comfortable little bed which would hold the eggs.

Then it was that he once more hunted up Jenny Wren. "My dear." said he, "we are all ready for the building of the nest in one of those little houses. Come over and see it." be happy in the spring if he could

"Besides, this isn't the house I want. Why didn't you take the other house?"
"You didn't tell me to," replied Mr. Wren meekly.
"Do I have to tell you everything?" snapped Jenny rather crossly.
"I'm sorry, my dear," replied Mr. Wren. "I'll go to work on the other house."

So Mr. Wren began to carry sticks

"I said we are not going to use this house," replied Jenny.

"But what was the idea in having me do all this work for nothing?" demanded Mr. Wren.

"To keep you out of mischief," retorted Jenny.

"So you have decided on the other house after all," said Mr. Wren.

"Who says so?" Jenny snapped.

"But if we are not going to use this house, we must use the other," protested Mr. Wren.

"There isn't any 'must' about it," declared Jenny. "I don't think we'll use either of these houses. I have my eye on another place."

It was then that Mr. Wren lost his patience. "Haven't you any mind of your own, Jenny Wren?" he demanded. "Here I've filled up two houses and now you say you are not manded. "Here I've filled up two houses and now you say you are not going to use either one. They are lovely houses, too. I don't know when I have seen such nice houses. I don't get the idea at all."

### HAL M'KENZIE LEADS IN TRAP SHOOT

## **CLOSE MATCHES**

Atlantan Wins First Day's Honors-Matches Will End Today.

By Welch Jordan.

Harold C. McKenzie, an Atlantan and one of the south's best trapshotters, won the majority of honors in the first day's shoot at the Peachtree club Monday, where a twoday invitation shoot is being

McKenzie, who is president of the Peachtree Club, was high gun in the first half of the registered singles and won the Martin-Nash challenge cup. He also tied for firs place in the doubles but lost to H. E. Johnson, of Haines City, Fla., in the extra shooting.

About 25 of the leading shooters of the south, including many Atlanta stars, were present at the opening of the great third anniversary shoot of the Peachtree Gun Club, and several more men are expected to be on hand today. The program today will include 400 singles, divided into the 200 singles open championship match, the second half of the registered singles, and the Peachtree Gun Club anniversary handicap, consisting of 100 singles in four events, from 16 to 25 of the program o versary handicap, consisting of 100 singles in four events, from 16 to 25 yards,

versary handicap, consisting of 100 singles in four events, from 16 to 25 yards.

EXCITING MATCH.

The most exciting match of the Monday shoot was the 50 pairs of doubles, which ended with three men iced for first place with 91 out of a possible 100. The play off, between Harry Johnson, Hal McKenzic, and a swcomer, Pullin, of McDonough, Ga. was won by Johnson, who missed only one of the flying targets, out of the 24 (12 pair of doubles). Pullin was second with 22, and McKenzic oaly one miss behind him with 21. A trophy will be awarded Johnson, and a runner-up cup will go to Pullin, who shot a particularly fine match.

The doubles and the Martin-Nash challenge cup were the afternoon matches, but the first half of the registered singles were shot in the morning with Hal McKenzic winning first place, shooting an excellent 98 out of the possible 100. J. R. Cothran, also of Atlanta. was second with a 96, and Dr. H. N. Alford ran a close third in this match with a 94. In getting his 98, McKenzic shot two perfect events, getting 25 out of 25 in the first and last, and 24's on the middle events. Mr. Cothran and Dr. Alford had one perfect event in their four, and each of them took two 24's.

In the Martin-Nash challenge cup race, which was previously held by H. A. McPherson, of Tampa, Fla. Hal McKenzic, of the home club, score: a great 144 to come in seven hits ahead of H. N. Johnson, who made 137 out of his 150 good. This match was divided into 100 singles. 25 at 16 yards, 25 at 22 yards, and 25 pairs of doubles, making a total of 150 targets. This shoot was not registered, as was the singles and doubles competition.

stered, as was the singles and dou-les competition.
TWO DAYS.

The program of the anniversary shoot was originally scheduled for three days but it has been cut to two days, and the doubles, which were to be shot on Tuesday and Wednesday,

be shot on Tuesday and Wednesday, were shot yesterday, thus making room for all of the rest of the singles on the program for today.

In the race for the Atlanta Georgian cup, which is to be awarded to the high amateur, Mr. McKenzie is in the lead with a total of 333 for the days' shooting out of a possible 350, white Harry Johnson, the Florida invader, is close behind with 313, and J. R. Cothran is third with 308. The fourth place is in a tie with Mrs. W. P. Andrews and Dr. H. N. Alford holding 307 each. The shooting in the 400 singles today, starting at 9 o'clock will decide the winner of the rup and anyone of these five might win the cup.

Mr. McKenzle, who made the most

Mr. McKenzie, who made the most Mr. McKenzle, who made the most of the shooting yesterday, is favored to win the Georgian cup, because he is known as a specialist in the singles, which make the entire program for today. Mr. Pullin, the surprise star in the doubles, would probably have an excellent chance of wiuning this cup, but he did not enter the singles.

this cup, but he did not enter the singles.

One of the outstanding trap shooters at the shoot is Ike Andrews, who olds the grand American championsip, won last year at Vidalia, Ohio, where 931 of the leading trapshooters the North American continent were entered. He also was the doubles champion in the Peachtree shoot last year. However, he was not able to make his usual championship bid in this shoot, due to injuries that he sustained in an automobile accident recently. Fightim: bravely against the field helped by his cane, he outshot several younger and stronger rivals. Later in the summer, when he regains his lost strength and form he will his lost strength and form he will start winning some more titles, as his marksmanship is steadily improving. Around about the circuit sports writers are still poking fun at us for having the franchise go into "alien" hands. The fact that Joe Engel is moving here to live is lightly passed over.

Once upon a time R. J. Spiller, born elsewhere, moved here to live and so did tens of thousands of others. Folks naturally come to Atlanta. It is a good place into which to move and invest money.

It so happens that few of the old families who were burned out of house and home by General Sherman have become interested in baseball as a career. But they welcome the new Atlantan heartily and the cordiality will develop mightily if he puts a winning baseball team out there. They will hail Joseph Engel as one of the home town boys if he gets his club up there by

Bob Gets 69 In **Practice Round** 

While distinguished amateurs and professionals were wrestling with the eard in serious competition, Bob Jones was playing lightly in a foursome with Tess Bradshaw, Chick Ridley and Sherwood Hurt and shot an approximate 69 yesterday.

Hurt and shot an approximate 60 yesterday.

Bob might easily have had a 85, Tess Bradshaw declared, brt for erratic putting. The most spectacular play of his round was a sparkling eagle 3 on the long No. 5. His tremendous second shot rolled to within 12 inches of the cup.

"He came mighty near getting a 2," declared Tess.

New Cracker President Will Complete Plans For Taking Over Atlanta Club.

By Ralph McGill.

Joe Engel, the beardless baseball Santa Claus, is scheduled to arrive this morning from Washington. He is the new Cracker baseball president who will officially take over the club Friday evening at 6 p. m. for the Washington baseball interests.

Just whether or not some bronzed young men will step off the train with Mr. President Engel has been the absorbing topic of interest since the purchase of the Crackers was announced last week.

matter a deep, dark secret when he knew all along that the Cracker fans were thinking of putting up a statue of him at Five Points, so rejoiced are they at his coming. Mr. Engel has never been in a statue. He may have been involved in a minor statute have been involved in a minor statute or so, but never in a statue. Despite all this he kept the plans of the Washington officials, of which he is one, a secret, guarding jeal-ously the identity of any players to be sent down to join the Crackers, all of whom are hustling about leat.

During the time that has skidded by since the club was purchased, Joe Engel has assured the press that there would be some announcement forthcoming upon his arrival, but that the main news will be revealed on Friday when the official transfer of the club from R. J. Spiller to Clark Griffth will be made.

Cracker fans are not at all interested, or rather are only mildly interested in what will be said on that evening. What they want to know is who will be a-playing with the baseball for the Crackers now that the new era has arrived. Mr. President Engel is expected to appease that libido today.

During the week that has followed the purchase of the club Mr. President Engel has managed to remain his own diplomatic self. It certainly pays to live around the Washington diplomats. Mr. President Engel has been in a good humor in telegrams and in long distance calls.

He has said nothing at all in a great many words that would tend to give out any baseball information. Many names have been reported as being prospective names for the Cracker line-up. Nothing has been official. The baseball fans will receive that

Some of the nation's finest golfers fell by the wayside yesterday as more than 900 golfers in 19 cities scattered from coast to coast, sought to qualify for the national open championship to be played at the Winged Foot Club late this

Month.

Some upsets were to be expected but the experts hardly had counted on seeing the failure to qualify of such stars as Jess Sweetser, former American and British amateur champion; Jess Guilford, the one-time "Boston seige gun," who also is a former national amateur titleholder: Watts Gunn, now of Pittsburgh, who was runner-up to Bobby Jones in the national amateur of 1925; Mike Brady, veteran Winged Foot pro, who as long ago as 1911 was runner-up in the national open, and Jimmy Farrell, elder brother of Johnny Farrell, who is to defend his title at Winged Foot.

Scoffs at Being Through; Sees Many Good Years Ahead.

By Alan J. Gould, Associated Press Sports Editor.

New York, June 10.—(AP) When Babe Ruth returns to the game, as he believes he will shortly, he intends to take care Jacksonville of himself, on as well as off selma the field.

For perhaps the first time in his career, Ruth, in his present illness, has been brought face to face with the fact that at the age of 35, after more than 15 years in the major leagues, he has reached a point where he cannot run the risks he once felt he could do and laugh at. Not so this time. The Babe is serious when

"I've done a lot of foolish things in my life but this is a good lesson for me. I'll take care of myself from now on."

"HOW LONG?"

"How much longer will the Babe last?" One hears this question asked on many sides. In many respects it is a marvelous

achievement for the Bable to have kept his top form as long as he has. He rose to as spectacular heights as ae has ever known in the world's series last year as he closed his 15th season. Yet, actually, he was in weakened

last year as he closed his loth season.
Yet, actually, he was in weakened and injured condition, sufficiently so for many an athlete to have stayed in bed or on the bench.
"I can't help playing hard when I am in there," declares Ruth. "I've got to give everything I have to the game."

One day last winter the Babe, in gym suit, growled as his trainer mas-saged and punched his mid-section. "Remember you once told me you figured to be still going strong at 40? Do you still feel that way?" he was

asked.
"Sure thing," shot back the big fellow. "I may slow up a little but I still will be in there socking 'em as long as I can get up to the plate." That, perhaps, sums up the case.
There is little doubt Ruth still would
be "socking 'em' if he had to be
wheeled up to the bat.
SIMPSON ACCLAIMED.

There will be no dissenting voices among his eastern followers to acamong his eastern followers to ac-claiming George Simpson as the first sprinter to do an official 9 2-5 seconds for the 100 dash. It will be an epoch in sprintdom if the world mark made by the Ohio State flash Saturday at Chicago withstands the scrutiny of the record-scrutinizers of the A. A. U. in November and then is passed on for international approval.

Blue Larkspur, the trim black son of Black Servant and Blossom Time, is king of the division.

The Bradley colt's victory in the classic Belmont stakes at a mile and a half on Saturday definitely established Blue Larkspur as the best 3-year-old of 1929. Kentucky's disappointment on Derby

Kentucky's disappointment on Derby Day when a downpour turned the track at Churchill Downs into a yellow lake and Colonel Bradley's good colt ran unplaced, now can turn to pride in the achievement of Blue Larkspur.

The Idle Hour Farm Gazette can get out a special edition about "Home Town Boy Makes Good," for Black Servant's Son has beaten the rest of his class in the two outstanding events at Belmont Park—the Withers and the Belmont stakes.

Playing with Hyatt, he thundered around the first nine holes in 35 strokes, in spite of pitching into the lake on the island hole and three-putting to miss a birdie on No. 9. That 35, however, put Charlie so far out in front that he had merely to keep his short legs under him to win. He played the last nine holes in sight. His 76 for 152 was in no particular danger.

Hyatt had miserable luck at No. 15 when he dubbed his tee shot, pulled his second into the woods, failed to get out on his third, and landed his fourth in the grass on the edge of a trap at the green. His six was pretty good at that, but he had a chance right there to catch Hall. He finished 444 for 155 and sat down to wait for the others to come in.

Spicer saw the gate wide open. The road leading to Winged Foot was clear. But his approach putt was short and he faced one tough problem in a three-footer downhill. It failed to drop and the hole was halved.

Hyatt pulled his tee shot to a dismal lie behind one of the supports of the water tower at No. 2. Spicer whose nerve might well have been shaken by his failure to win on No. 1, was nicely on. Hyatt made his last cifort in a delicate chip shot that cleared the support, but he missed his four-footer and retired with a 4. Spicer putted carefully and got his par three, good for one starting badge in the national open.

### Holland Tennis

Team Defeated Budapest, June 10.—(United News.)
Holland was eliminated in the
quarter-final round of European zone
Pavis cup play today when Baron
Von Kehrling, of Hungary, defeated
Timmer, the Dutch star, in the deciding singles match, 8-6, 6-3, 3-6,
6-3. The Hungarian team will meet
Great Britain in the semi-final
round.

You might think that running an open golf championship is simple Try it once and change your mind. A pair of umpires run a ball game and four officials can look after the hardest sort of football war. But at this moment, Commander Nib Nobles with John G. Anderson and other staff officers, have something like 500 shock troops in training for the big show at Winged Foot later on this month. Something over 200 of these will be course marshals, to look after the big galleries that will make the usual attempt to get close enough to star players to hear the bubbles popping in their necks. There will be over a hundred scorers to record the vital statistics. There will be reserves and platoons for other work and these are now in the process of being drilled and renearsed to handle players, crowds and whatever else may need andling. There will be an extra supply of rope to keep the thundering herd in check and to give every player a chance. But while this is taking place, full accommodations will be made for the crowd, and those who come as non-combatants will have every chance to see every shot played by any favorite. Not even old Doc Argus himself, with the legs of a centi-

#### NEVER MIND ABOUT THE CLOVER.

If you want to see Commander Nibs Nobles and his staff reach for a

machine gun just mention clover.

They expect to have the fairways in perfect condition and they have orked hard enough to put 20 courses in shape. "There will be no clover to bother any player who keeps his tee shots on the fairway," says Johnny Anderson. "There is clover all over the United States and there will, of course, be a certain amount of clover at Winged Foot, but it won't be where any good drive ought to go. Every player will have a fair shot to the green for his second from first-class turf, so any alibis offered about the clover for poor shots will be merely alibis." Winged Foot officials say that if necessary any clover that may be around will be removed if a safety razor is needed for the operation. But the talk of clover fairways won't be borne out by the facts. All of those officially connected with the next U. S. open are confident that both fairways and putting greens will be up to any past standards, and when you consider the turf of Westchester and the enormous amount of work that has been datch-Maker McGrory done on the course, there is no reason why both fairways and greens day. should not be ready for a championship test.

#### ALL SET FOR BIG SHOW.

For several weeks Winged Foot has had an army of workmen getting the 6,800-yard battlefield ready for the finest field that ever fought for a championship. Members of the American Ryder cup team ran 1-2 in the British open, but they will face much stronger competition here. More than a hundred workmen have been hard at it, working on fair ways and greens, digging bigger and better bunkers, extending and deepprincipals and with Paul Stovail, ening others, pruning the uplands and the lowlands, tossing in new sand Mark Trammell and Dick Burnett as and planning in general to have every detail ready for the biggest show in golf, and one of the biggest in all sport. golf, and one of the biggest in all sport.

There will be backstops behind each tee, so the players will not be

harrassed by moving spectators, especially the variety that decide sud-denly to lurch forward at the last moment.

"You don't mind 4,000 moving," says Jim Barnes, "but when 4,000 are still and one enthusiast decided to crowd up at the last movement it is another story." The backstop isn't a bad idea. Only it is more of a crowd shield than a backstop. I have seen more than one shot wrecked by some spectator ducking in under the swing to get a closer view, or by moving in back of the golfer just as he was starting the down swing.

Trapshooters from all over the Southern states will be entered in the South Carolina state meet, to be held at Greenwood, S. C., July 15 and 16. This is one of the biggest shoots of its kind in the south and practically all of this section's leading stooters will be on hand, including several of Atlanta's foremost followers of the clay target. There will be considerable added money and many silver trophies will be awarded to the winners in the events, which will cover as wide a range as is practical and desirable.

The leading clubs in the segue have kept their tions fairly well, although able that New York has considerable added money and many better and Boston still becover as wide a range as is practical and desirable.

### Mid-West Proves Track Superiority

New York, June 10.—The east has been comforting itself with the thought that it is the California climate, which permits 12 months of outloor sport, rather than the California athletes, that accounts for the suremacy of Pacific coast colleges in track meets.

Ohio State certainly finished first.

meet here Wednesday night in what should be tthe most fiercely fought match ever staged in the city. Steinborn, who depends on his terrific strength and his body-crusher hold, will be after the elusive Jones who knows a multitude of them and specializes on one—the book-scissors. It will be intelligence and skill against brawn and that sort of a match is always exciting while it lasts.

Steinborn is a difficult man to meet. Once he obtains his body-crusher, the match is at an end sof far as that one fall is concerned. He can squeeze a man until his ribs crack. Wrestlers, fearing to meet him, are seeking to rule out the crusher and demand that he learn more wrestling. There is nothing illegal about it but they dislike it more than Lewis' headlock or old man Zbyszko's toe hold.

Jones will be the popular favorite. Londos has definitely promised to meet the winner fifteen days after the match Wednesday night.

Preliminaries will be arranged by Match-Maker McGrory sometime to day.

#### Smokies Draw Chick Infielder

Memphis, Tenn., June 10 .- (P)-Memphis, Tenn., June 10.—(P)—The Commercial Appeal was advised tonight that Eric McNair, shortstop for the Memphis club of the Southern association, had been turned over to the Knoxville Smokies of the South Atlantic association for the remainder of the season. The announcement was made by club officials at Mobile, where the team is playing. McNair came to the Chicks from Meridian, where he played in the Cotridian, where he played in the Cotton States league. He sprained an ankle early in the season and has been used but a few times by the Chicks.

red network at 11:30, eastern daylight time.

Mr. Macfadden, who is internationally famed as the founder of the physical culture movement, will base his
remarks on his editorial in the current
issue of Physical Culture Magazine,
the fitle of which is "Boys and Girls
All Through Life." He will explain
how it is possible to retain youthful
verye and enthusiasms through the
years on the far side of the halfcentury mark. As the guest of the Radio House-hold Institute, Bernarr Macfadden, editor, publisher and physical cultur-

### Over \$100,000.00 Paid To Constitution Subscribers During the Past Seven Years Through Its Insurance Service Department... The Greatest Service Rendered by Any Newspaper in the South

Have you overlooked the protection your family needs so that if the worst should happen to you in case of a travel and pedestrian accident they are protected? Are you doing your duty to yourself and them by neglecting this?

Here is shown evidence of some of the most wonderful service The Atlanta Constitution is rendering to its sub-

Mr. C. R. Wood, Hapeville, Ga., was holder of policy No. 6669513, and on January 12, 1929, while crossing the street at Fair and Lawshe Streets, Atlanta, Ga., was struck and knocked down by an automobile, fracturing his skull, from which he died January 14. His beneficiary was paid \$1,200.00

Mr. Howard Bosworth, Atlanta, Ga., holder of policy No. 6129452, on January 15, 1929, while driving out Peachtree Road, struck a raised car track causing his car to crash into a telephone pole, from which accident he died later during the day in a local hospital. His beneficiary was paid \$2,200.00.

Mr. Dean J. Holt, Sandersville, Ga., was holder of policy No. 6552932. On January 8, 1929, while returning from his farm, his automobile hit a rough place in the road, causing him to lose control of his car and it ran into a peanut threshing machine by the side of the road, causing the car to overturn, crushing him and killing him instantly. His beneficiary was paid \$2,400.00.

Mr. Lewis A. Holt, of Sandersville, Ga., a brother of Dean J. Holt, holder of policy No. 6552933, was injured in an automobile accident on March 30, 1929, about seven miles from Dublin, Ga., from which accident he died in a Dublin hospital on that day. His beneficiary was paid \$2,400.00. This makes two fatal automobile accidents in one family in less than three months, each carrying a Travel and Pedestrian Accident Insurance Policy through The Atlanta Constitution at the small cost of \$1.25 each, and the beneficiary was paid \$4,800.00, or \$2,-400.00 each. It pays to be protected with a Constitution policy.

Mr. J. A. Broger, Atlanta, Ga., was holder of a Constitution policy, and while going to work in his automobile March 2, 1929, was struck by a train, from which accident he died on the way to a local hospital. His beneficiary

This makes a total of \$10,200.00 paid in a short space of time to subscribers of The Atlanta Constitution, who were thoughtful enough to protect themselves through The Atlanta Constitution's most wonderful insurance protection service. These payments are in addition to many smaller payments caused from total disability traveler and pedestrian accident (not fatal) from \$10.00 to \$150.00. These accidents and payments are almost daily.

Every subscriber to The Daily and Sunday Constitution and immediate depending members of a subscriber's family, between the age of 15 and 70, are entitled to this insurance for only \$1.00 per policy per year in addition to the subscription price.

Suppose tomorrow you would be the victim of a travel accident and thousands of them occur every day, what of your family? You can't be happy if you have not made provision for them. Why take a chance? Now while there is still time protect yourself and every member of your family between the ages of 15 and 70 with

#### Produce

Demand and trading yesterday were only aderate. Supplies were decreasing especially rail and express supplies. Trucked a stock of homegrown produce was rather light due to cessation of picking over Sunay. California cantaloupes were cleaning up as Georgia express stock was confined in to take their place. Supplies of lettuce were increasing with good stock from California; the lettuce market was holding steady. Sew potatoes were arriving from Nerth and South Carolina as well as from Cecrain, Texas and Minnesota. Tomatoes supplies were liberal.

DISAPPEARING MORTGAGE WAY. WOMAN demanded a home; before that time man was willing to live in a cave; since then man has been trying to build a home that would make "HIS WOMAN" happy.

I AM BUILDING on Ewing place, S. W.,
5 rooms and aleeping porch brick veneer
bungalows that would make any WOMAN
happy to call it her home.

I AM DUING my hest to build into these
houses the things that are necessary to
make home a piece of comfort, of lasting
beauty.

make home a piece of comfort, of lasting beauty.

TO DO THIS I have used the best grade oak flooring, copper screens, furnace, built-in tub and tile flooring and ROCK LATH for walls and ceilings.

I HAVE put into these houses the best of material and workmanship and the price is far below what you would expect to pay for such values.

THEN, the "Dissuppearing Mortgage Plan" makes it easy to pay for a home. Your notes are the same each month, no interest coupons to pay nor loan renewals at the end of five years, you pay the same each month until your home la paid for. Open for inspection. Inspection.
